TABLE OF CONTENTS.

		PAGE
Spermatogenesis and oogenesis in *Ephedra trifurca*. Contributions from the Hull Botanical Laboratory LIX (with plates I–V). - - - - -	*W. J. G. Land*	1
The water relation of *Puccinia asparagi*. A contribution to the biology of a parasitic fungus (with twenty-one-figures) - - - - -	*Ralph E. Smith*	19
Delta and desert vegetation (with seven figures) -	*D. T. MacDougal*	44
Oogenesis in Vaucheria. Contributions from the Hull Botanical Laboratory. LXI (with plates VI. and VII) - - - - - - - - -	*Bradley M. Davis*	81
A study of *Tillandsia usneoides* (with one figure and plates VIII–XI) - - - - - - -	*Frederick H. Billings*	99
Biological relations of certain desert shrubs. I. The creosote bush (*Covillea tridentata*) in its relation to water supply (with seven figures) - -	*V. M. Spalding*	122
The development of the central cylinder of Araceae and Liliaceae. Contributions from the Hull Botanical Laboratory. LXII (with plates XII-XV) - - - - - - - -	*Mintin Asbury Chrysler*	161
The development and relationship of Monoclea. Contributions from the Botanical Laboratory of the Johns Hopkins University, No. 2. (with plates XVI and XVII) - - - - - -	*Duncan S. Johnson*	185
On the spores of certain Coniferae (with twenty-four figures) - - - - - - - - - -	*W. C. Coker*	206
The relationships of sexual organs in plants. Contributions from the Hull Botanical Laboratory. LXIII - - - - - - - - - -	*Bradley M. Davis*	241
A lichen society of a sandstone riprap (with five figures) - - - - - - - - - -	*Bruce Fink*	265
Transpiration of sun-leaves and shade-leaves of *Olea europaea* and other broad-leaved evergreens (with eleven figures) - - - - - -	*Joseph Y. Bergen*	285
A fossil Sequoia from the Sierra Nevada (with plates XVIII and XIX) - - - - - - -	*Edward C. Jeffrey*	321
Place-constants for *Aster prenanthoides*. Contributions from the Hull Botanical Laboratory. LXIV (with eighteen figures) - - -	*George Harrison Shull*	333

PAGE

The variation of some California plants (with nine figures) - - - - - - - - - *Edwin Bingham Copeland* 401
Klinostats and centrifuges for physiological research (with three figures) - - - - - *Frederick C. Newcombe* 427
Ecological notes on the trees of the Botanical Garden at Naples (with four figures) - - - - - *Grace E. Cooley* 435
Relative transpiration of old and new leaves of the Myrtus type - - - - - - - - - *Joseph Y. Bergen* 446
Regeneration in Zamia. Contributions from the Hull Botanical Laboratory. LXV (with eight figures) - - - - - - *John M. Coulter* and *M. A. Chrysler* 452

BRIEFER ARTICLES—

The aecidium of maize rust - - - - - *J. C. Arthur* 64
An experiment on the relation of soil physics to plant growth. Contributions from the Hull Botanical Laboratory. LX (with three figures) - - *Burton E. Livingston* and *Gerhard H. Jensen* 67
A new Gilia - - - - - - - - - *Alice Eastwood* 71
Notes on North American grasses. III and IV - - - - - - - - - - *A. S. Hitchcock* 139, 297
Carl Schumann (with portrait) - - - *Janet Perkins* 143
A correction - - - - - - - *Charles J. Chamberlain* 145
Artificial parasitism: a preliminary notice. - *George J. Peirce* 214
The growth of *Ramalina reticulata* Krempelh (with one figure) - - - - - - *Albert C. Herre* 218
Oogenesis and fertilization in *Albugo Ipomoeae-panduranae* (with two figures) - - - *F. L. Stevens* 300
A new sheep poison from Mexico - - - *B. L. Robinson* 376
Some western species of Agropyron - - *Elias Nelson* 378
Note on some British Columbian dwarf trees (with three figures) - - - - - - *Conway MacMillan* 379
Celloidin technique: a reply *E. C. Jeffrey*, *Charles J. Chamberlain* 381
An abnormal Ambrosia (with three figures) - *A. C. Life* 383
New or unreported plants from southern California - - - - - - - - - *S. B. Parish* 459

CURRENT LITERATURE - - - - - - - - 73, 146, 220, 303, 385, 463
For titles see index under author's name and Reviews. Papers noticed in "Notes for students" are indexed under author's name and subjects.

NEWS - - - - - - - - - - 79, 160, 239, 318, 399, 480

DATES OF PUBLICATION.

No. 1, July 16; No. 2, August 18; No. 3, September 23; No. 4, October 20; No. 5, November 19; No. 6, December —.

ERRATA.

VOLUME XXXVII—

P. 450, line 19, for cones read ones.
P. 450, line 3 from below, for as read or.
P. 451, line 5, for fallen read galled.
P. 452, line 7 from below, for found read formed.
P. 454, line 17, for abuses read absence.

VOLUME XXXVIII—

P. 80, line 9 from below, for Pathology read Physiology.
P. 83, line 4 from below, for he read the.
P. 89, line 8, for precesses read processes.
P. 89, line 8, for oogonesis read oogenesis.
P. 92, line 5, for oogonesis read oogenesis.
P. 160, line 2, for societv read society.
P. 163, line 10 from below, insert as after pericycle.
P. 298, line 11 from below, for Coixdactyloides read Coix dactyloides.
P. 391, line 9 from below, for mycological read cytological.
